Detailed Findings

1. Content-Security-Policy

URL: https://chatgpt.com/images

Severity: High

Description: Missing Content Security Policy (CSP) header. This may increase the risk of Cross-Site Scripting (XSS).

Recommendation: Implement a Content-Security-Policy header.

2. Content-Security-Policy

URL: <https://chatgpt.com/plugins>

Severity: High

Description: Missing Content Security Policy (CSP) header. This may increase the risk of Cross-Site Scripting (XSS).

Recommendation: Implement a Content-Security-Policy header.

3. X-Frame-Options

URL: <https://chatgpt.com/images>

Severity: Medium

Description: Missing X-Frame-Options header. Website may be vulnerable to Clickjacking.

Recommendation: Use X-Frame-Options: DENY or SAMEORIGIN.

4. X-Frame-Options

URL: <https://chatgpt.com/plugins>

Severity: Medium

Description: Missing X-Frame-Options header. Website may be vulnerable to Clickjacking.

Recommendation: Use X-Frame-Options: DENY or SAMEORIGIN.

5. Permissions-Policy

URL: <https://chatgpt.com>

Severity: Low

Description: Missing Permissions-Policy header.

Recommendation: Restrict unnecessary browser permissions.

6. Permissions-Policy

URL: <https://chatgpt.com/images>

Severity: Low

Description: Missing Permissions-Policy header.

Recommendation: Restrict unnecessary browser permissions.

7. Permissions-Policy

URL: <https://chatgpt.com/plugins>

Severity: Low

Description: Missing Permissions-Policy header.

Recommendation: Restrict unnecessary browser permissions.
